7•	8.	On 7 September, trucks carrying	•
		boxes and rods and coming from the Arado installation, were entrained at the Nordbahnhof in Rathenow and left toward Brandenburg. At 10:15 a.m. on 8 September, a truck towing a telescope-must trailer passed through Rathenow, coming from the direction of Brandenburg and proceeding toward Bamme. On 9 September, trucks	25X 25X

		carrying boxes and gasoline barrels and occupied by 3 to 4 soldiers each, passed through Rathenow, coming from the direction of the new lock and proceeding toward the barracks installation. The trucks were heavily soiled. On 6 September, the meadows between the Havel and Stremme Rivers, northwest of Rathenow, were cordoned off. Thirteen biplanes and two	25%
	٠	high-wing monoplanes were in the southwest corner of this area. The grass on strip, which was 15 meters wide and extended in north-south direction, had been cut; the strip apparently served as runway.

		Rolding chairs and tables and at least 4 tents were seen in the bivouac. The wood patch was cordoned off. Between 24 and 23 August, trucks of the bivouacking unit were repeatedly seen at the main railroad station, picking up telegraph poles and reels of white wire. On 23 August,	25X
		the troops started construction telephone lines, which extended from the bivotac via the Gruenau forestry, across the road into the meadows and, from there, toward north. On 30 August, an 3-wire telephone line of white wire which, on 15 August, had been constructed by about 50	25X
		soldiers equipped with 10 trucks, had been completed. The telephone line joined Highway No 103 near the branch-off to Retzow, 10 km west of Nauen, and, from there, followed the highway. West of the branch-off was a four-sectional mast. Between 2 and 5 September, an undetermined number of trucks,
